## WACSOFF DEPLOYS ELECTORAL OBSERVERS FOR GHANA'S DECEMBER 7<sup>TH</sup> 2024 ELECTIONS

**ABUJA DECEMBER 08<sup>TH</sup> 2024:** In a bid to promote transparency and accountability in Ghana's electoral process, the West African Civil Society Forum (WACSOFF) has deployed electoral observers across the country for the December 7th, 2024, elections.

This move is part of WACSOFF's efforts to support democratic governance and ensure the integrity of the electoral process in West Africa. The organization has been actively engaged in promoting democracy and good governance in the region.

The deployment of electoral observers by WACSOFF is a significant step towards ensuring the credibility and transparency of the electoral process. These observers will be responsible for monitoring the voting process, counting, and collation of results, as well as reporting any irregularities or incidents that may occur.

WACSOFF's efforts are complemented by other regional organizations, such as the Economic Community of West African States (ECOWAS), which has also deployed observers to Ghana for the elections. This collaborative approach demonstrates the commitment of regional organizations to promoting democracy and good governance in West Africa.

According to the WACSOFF Regional Executive Director, Mr Komlan MESSIE, as Ghana goes to the polls, the presence of electoral observers from WACSOFF and other organizations will help to ensure that the electoral process is free, fair, and credible.

For the coordinator of WACSOFF Ghana platform, Mr Mensah Thompson, this is crucial for maintaining the stability and democratic credentials of Ghana, and for promoting confidence in the electoral process among citizens.
